

CHEVVURI VIVEK KUMAR

Bachelor of Technology – Computer Science and Engineering

Gayatri Vidya Parishad College of Engineering

+91-8919143805 | vivekkumarchevvuri@gmail.com | github.com/vivekkumar726 | leetcode.com/vivek_kumar_7

Career Objective

|  Portfolio

Final-year Computer Science undergraduate with strong foundations in Java, Data Structures & Algorithms, Full Stack Development, Machine Learning, and Cloud Computing. Experienced in building scalable web applications using Spring Boot, React.js, FastAPI, PostgreSQL, and RESTful APIs. Passionate about developing AI-powered solutions, solving complex engineering problems, and contributing to innovative software products. Seeking Software Development Engineer or Full Stack Developer opportunities where I can apply my technical and problem-solving skills.

Education

Degree/Certificate	Institute/Board	CGPA/%	Year
B.Tech., CSE	Gayatri Vidya Parishad College of Engineering	8.98	2023–2027
Senior Secondary (XII)	Sri Viswa Junior College, Andhra Pradesh	98.6%	2021–2023
Secondary (X)	Vivekananda High School, Andhra Pradesh	100%	2020–2021

Projects

House Price Prediction System

|  Live Demo |  GitHub

Python, FastAPI, Streamlit, Scikit-learn, Pandas, NumPy

- Developed an end-to-end machine learning application for house price prediction using Python, FastAPI, and Streamlit.
- Built a complete ML pipeline including data preprocessing, feature engineering, model training and evaluation.
- Implemented and compared Linear Regression, Decision Tree, and Gradient Boosting models, achieving improved prediction accuracy through feature selection and optimization.
- Deployed the trained model using FastAPI and integrated it with a responsive Streamlit frontend for real-time price prediction.

Smart Healthcare System

|  GitHub

Java, Spring Boot, React.js, MySQL, REST APIs, Spring Security, JWT

- Developed a full-stack healthcare management system enabling online doctor appointment booking with real-time slot availability.
- Implemented smart queue management with estimated waiting time prediction and automated appointment reminders to reduce patient waiting time.
- Built secure digital health record management, allowing patients to store medical reports and doctors to access patient history and prioritize cases based on severity.
- Developed RESTful APIs with Spring Boot and secured the application using Spring Security and JWT Authentication for role-based access control.

Internship Experience

AICTE Virtual Internship – Java Stack Web Development

Remote

- Gained hands-on experience in Java Full Stack development using modern frontend and backend technologies.
- Built web applications using Spring Boot, Hibernate, and MySQL with REST API integration concepts.
- Strengthened understanding of software development lifecycle, version control, and enterprise application development.

Skills

- Programming Languages:** Java (Primary), Python, C++, C
- Core CS Concepts:** Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, Database Management Systems, Computer Networks, Software Engineering
- Full Stack & Cloud:** Spring Boot, Hibernate, JDBC, React.js, HTML, CSS, JavaScript, REST APIs, MySQL
- Machine Learning:** Scikit-learn, Pandas, NumPy, Matplotlib, Supervised Learning, Data Preprocessing, Model Evaluation
- Tools & Technologies:** Git, GitHub, Maven, Postman, VS Code
- Soft Skills:** Leadership, Teamwork, Communication, Problem Solving

Certifications

- AWS – Cloud Practitioner CLF-C02** *2026*
- ServiceNow – Certified System Administrator (CSA)** *2026*
- AICTE – Java Full Stack Developer** *2026*
- NPTEL – Joy of Computing Using Python** *2025*

Achievements

- Qualified Sainik School Entrance Examination and NDA Examination.
- Achieved consistent academic excellence with 8.98 CGPA in B.Tech Computer Science Engineering.
- Secured 98.6% in Intermediate and 100% in Class X board examinations.
- Demonstrated strong leadership, teamwork, and communication skills through academic projects.
