

CHEVVURI VIVEK KUMAR

Bachelor of Technology – Computer Science and Engineering

Gayatri Vidya Parishad College of Engineering

+91-8919143805 | vivekkumarchevvuri@gmail.com | github.com/vivekkumar726 | leetcode.com/vivek_kumar_7

Career Objective

Motivated Computer Science undergraduate with strong foundations in MERN Stack Development, Data Structures Algorithms, Machine Learning, and Web Technologies. Proficient in MongoDB, Express.js, React.js, and Node.js with experience building responsive and scalable web applications. Familiar with RESTful APIs, authentication, Redux, and real-time functionalities. Passionate about developing real-world applications and AI-driven solutions, with strong problem-solving and analytical skills. Seeking opportunities to contribute and grow in innovative software engineering roles.

Education

Degree/Certificate	Institute/Board	CGPA/%	Year
B.Tech., CSE	Gayatri Vidya Parishad College of Engineering	8.98	2023–2027
Senior Secondary (XII)	Sri Viswa Junior College, Andhra Pradesh	98.6%	2021–2023
Secondary (X)	Vivekananda High School, Andhra Pradesh	100%	2020–2021

Projects

RideHail | UBER-CLONE |  GitHub

MERN Stack, WebSockets, Google Maps API

- Developed a real-time ride-hailing application using the MERN stack with WebSockets for instant ride request handling.
- Integrated Google Maps API for live location tracking, route navigation, and dynamic fare estimation.
- Implemented JWT-based authentication and role-based access control for secure rider and driver management.
- Optimized backend APIs, database operations, and real-time communication for improved scalability.

House Price Prediction System |  GitHub

Python, Scikit-learn, Pandas, NumPy

- Built an end-to-end ML pipeline covering preprocessing, feature engineering, model training, and evaluation.
- Implemented and benchmarked Linear Regression, Decision Tree, and Gradient Boosting models.
- Improved prediction accuracy using hyperparameter tuning and advanced feature selection techniques.
- Visualized model trends and feature importance for data-driven insights.

Internship Experience

AICTE Virtual Internship – Full Stack Web Development *Remote*

- Gained practical full-stack development experience in a virtual collaborative environment.
- Built web applications integrating frontend technologies with MySQL backend systems.
- Developed understanding of software development lifecycle and REST API integration concepts.

Skills

- Programming Languages:** Java, Python, C, C++, JavaScript
- Relevant Coursework:** Data Structures Algorithms, Object-Oriented Programming, Operating Systems, Database Management Systems, Computer Networks, Software Engineering, Artificial Intelligence, Machine Learning, Web Development
- Web & Full Stack:** React.js, HTML, CSS, JavaScript, REST APIs, MySQL
- Libraries & Frameworks:** Scikit-learn, Pandas, NumPy, Matplotlib, JWT
- Machine Learning:** Supervised Learning, Unsupervised Learning, Data Preprocessing
- Competitive Coding:** Solved 320+ DSA problems on LeetCode and coding platforms
- Soft Skills:** Leadership, Teamwork, Communication, Problem Solving

Certifications

- NPTEL – Joy of Computing Using Python** *Dec 2025*
- NPTEL – Introduction to LLM** *2026*
- NPTEL – Data Analytics with Python** *2026*
- AICTE – Web Full Stack Developer** *2025*
- AICTE – Google AI-ML Virtual Internship** *2026*

Achievements

- Qualified Sainik School Entrance Examination and NDA Examination.
- Achieved consistent academic excellence with 8.98 CGPA in B.Tech Computer Science Engineering.
- Secured 98.6% in Intermediate and 100% in Class X board examinations.
- Demonstrated strong leadership, teamwork, and communication skills through academic projects.
